

Recovery Response Center

Recovery Innovations North Carolina

# RECOVERY RESPONSE CENTER

RINC

Recovery Innovations of North Carolina

### **Recovery Response Center...**

The Recovery Response Center serves residents of Vance, Franklin, Warren, Granville, and Halifax counties. Staffed with a team that includes physicians, nurses, mental health professionals and peer support specialists, the Recovery Response Center offers a crisis alternative recovery environment that supports the values of hope, choice and empowerment from the onset of a person's entry into the program. The Recovery Response Center provides 24 hour, 7 day a week support that looks and feels more like a "home" than a clinical setting and has the capacity to respond to individuals voluntarily seeking assistance as well as accepting individuals under petition for involuntary commitment.

Utilizing Peer Support Specialists, guests will have the opportunity to learn alongside employees that have also had similar life experiences. People are offered a mix of classes and other supports in a "no force first" environment that incorporates the five Recovery Pathways of Hope, Choice, Empowerment, Recovery Culture and Spirituality while supporting the person through their current situation. Each guest is invited to make decisions and choices that they believe will foster their recovery.

Following a brief stay at the Recovery Response Center, each guest will return to their home. The Recovery Response Center coordinates with the clinical home provider and other involved providers to establish follow-up appointments and ongoing support services.

The Recovery Response Center is funded by Five County Mental Health Authority and North Carolina Department of Health and Human Services.

### **ABOUT RECOVERY INNOVATIONS...**

Founded in 1990 in Arizona, META Services became Recovery Innovations in 2006 to develop recovery-based programs and training opportunities throughout the United States and the world. The Recovery Opportunity Center provides training and technical assistance worldwide to support organizations and systems as they implement the vision of recovery. Recovery Innovations North Carolina was created in 2007 to provide recovery-based programs and supports in North Carolina. New non-profit companies have been created in other states as well offering a range of recovery and peer support services.

### **OUR MISSION IS...**

To create opportunities and environments that empower people to recover, to succeed in accomplishing their goals, and to reconnect to themselves, others, and meaning and purpose in life.
